Vision
The Maryland Developmental Disabilities Council envisions a state where all people with developmental disabilities exercise control over their lives, reach their full potential, and lead healthy, fulfilling lives with enriching relationships.

Mission
The Maryland Developmental Disabilities Council’s mission is to advance the inclusion of people with developmental disabilities in all facets of community life by eliminating barriers, creating opportunities, empowering people, and promoting innovation.
TO ACCOMPLISH OUR MISSION, THE COUNCIL:

- Educates and informs policymakers about issues of importance to people with developmental disabilities and their families.
- Advocates for policies, practices, laws, and services that support people with developmental disabilities to exercise control over their lives, reach their full potential, and lead productive, meaningful lives.
- Designs & funds initiatives that increase community inclusion, improve services and supports, and increase opportunities for people with developmental disabilities to pursue their hopes, dreams, and aspirations.
- Promotes innovative approaches to supporting people to live, learn, work, and enjoy community life.
- Advocates for the elimination of barriers that create separation and segregation and limit opportunities for full inclusion and community participation.
- Raises public awareness about people’s contributions and capabilities so differences are respected, attitudes change, and inclusion and equality become an expectation.
- Supports people with developmental disabilities and their family members to develop advocacy and leadership skills to affect change in their own lives and the lives of others.

MDDC works in partnership with people with developmental disabilities and their families, as well as other individuals and organizations, to bring about lasting change.

We develop a 5-year State Plan that establishes our priorities and serves as a roadmap for accomplishing our goals.
