COVID-19 VACCINES *They save lives!*

WHAT IS COVID-19?

COVID-19 is a disease. It is also called coronavirus. COVID-19 spreads from person to person. Most people who get COVID-19 get a little sick and get better at home. But other people get very sick. Some people even continue to have health problems after they no longer have COVID-19. People can end up in the hospital and even die from COVID-19. That is why it is very important to get the COVID-19 vaccine (shot).

WHAT IS A VACCINE?

A vaccine is medicine that comes in a shot. Vaccines have been used to fight diseases for a long time. Most of us have had different vaccines. They have kept us from getting sick from diseases like measles and chickenpox. And many of us get a flu shot each year.

WHAT ARE THE COVID-19 VACCINES?

There are 4 different COVID-19 vaccines in the U.S. They are made by companies called Pfizer, Moderna, Novavax, and Johnson & Johnson. They all work very well and are free. People who get the shots are much less likely to get COVID-19. If they get COVID-19, the shots keep them from getting very sick, needing hospital care, and dying.

With Pfizer, Moderna, and Novavax you get 2 shots. You must get both shots for the vaccine to work. People should also get COVID-19 “booster” shots. A booster shot is an extra shot that keeps your body strong against COVID-19. See the *Booster Shots fact sheet* for more information.

ARE COVID-19 VACCINES SAFE?

Yes! They were tested on tens of thousands of people. They had to meet strong safety rules. Millions of people have received COVID-19 shots. After getting the shot, some people have a sore arm or feel like they have the flu. This usually only lasts a few days. Serious side effects are very unlikely. The benefits of COVID-19 shots are much greater than the risks.

WHY SHOULD I GET THE COVID-19 VACCINE?

It is a safe way to protect yourself and others from COVID-19. COVID-19 vaccines save lives.

WHO CAN GET THE VACCINE IN MARYLAND?

Anyone who is 6 months or older can get a COVID-19 vaccination. Children can get the shots made by Pfizer or Moderna.

WHERE CAN I GET A VACCINE IN MARYLAND?

You can get COVID-19 shots at pharmacies, doctor's offices, urgent care clinics, and local health departments all over Maryland.

To find where you can get COVID-19 shots near you, go to: covidvax.maryland.gov.

WHAT IF I NEED HELP GETTING TO A PLACE WHERE COVID-19 SHOTS ARE GIVEN?

Call-855-MD-GoVAX (855-634-6829), or someone can call for you. The GoVAX Support Center will help figure out what support is available.

This project was supported, in part by grant number CFDA 93.630, from the U.S. Administration for Community Living, Department of Health and Human Services, Washington, D.C. 20201. Grantees undertaking projects with government sponsorship are encouraged to express freely their findings and conclusions. Points of view or opinions do not, therefore, necessarily represent official ACL policy.
